Email: anchalmalik787@gmail.com

Github: <https://github.com/Anchalmalik9>

Mobile: +91 8394003329

SKILLS

Languages:	C++, JavaScript, PHP, Java
Framework:	React.js, Node.js, HTML
Tools/Platforms:	Jira, Selenium-IDE, MySQL
Soft Skills:	Judicious, Analytical, Strategic, Agile, Optimistic, Compassionate

PROJECTS

Waste-Wise Link	Mar' 25
- Developed an intelligent waste management system to streamline waste tracking, scheduling, and user awareness through an interactive digital platform. - Built a smart platform integrating a chatbot and quiz module to assist users, boost engagement, and promote responsible waste disposal practices. - Enabled adoption across households, communities, and municipal bodies to optimize collection processes, educate users, and drive eco-friendly habits for a sustainable environment. Tech: HTML, CSS, JavaScript, PHP	
Efficient Page Replacement Algorithm Simulator Link	Apr' 25
- Developed an educational simulator to visualize and compare page replacement algorithms and demonstrate memory management concepts. - Built a simulation tool that accepts page references and frames to display FIFO, LRU, and Optimal algorithm execution with performance metrics like page faults and hit ratio. - Designed for students and educators to understand real-world memory management and strengthen Operating Systems concepts through interactive demonstrations. Tech: HTML, C, Inline CSS	

TRAINING

Basics of DSA - LPU/ Certificate	Jun' 25 – Jul' 25
Basics of DSA Using CPP - Strengthened problem-solving skills by implementing core data structures (arrays, linked lists, stacks, queues, trees, hash tables, and graphs) in C++ to improve algorithmic thinking. - Improved time and space efficiency by solving DSA problems and applying optimized searching and sorting algorithms such as Binary Search, Merge Sort, Quick Sort, and Heap Sort. - Built a Trash Bin Tracking System using graphs and queues to optimize waste-collection routes and apply DSA concepts to a real-world problem.	

ACHIEVEMENTS

• Code Storm 36 by Microsoft Certificate	Jun' 25
• Capture the Flag (CTF) – Thapar University Certificate	Feb' 24

CERTIFICATES

• Cloud Computing – NPTEL Certificate	May' 25
• Java Programming- IamNeo Certificate	Mar' 25
• Data Structure and Algorithm- IamNeo Certificate	Mar' 24

EDUCATION

Lovely Professional University Bachelor of Technology: Computer Science and Engineering; CGPA- 7.05	Phagwara, Punjab August 2023 - Present
Army Public School Intermediate: PCM; Percentage: 78%	Meerut Cantt., Uttar Pradesh Apr' 2020 – Mar' 2022
Army Public School Matriculation: Percentage: 90%	Meerut Cantt., Uttar Pradesh Apr' 2019 – Mar' 2020
